

## ***Instruction manual for the NOWAR Prisoners Transport Belt***

1. *The staff disappears behind the prisoner.*
2. *Turn the transport belt around the prisoner and make sure that the shackle shows to the right side and the two metal eyelets to the left.*
3. *Fixation the shackle first by the internal eyelet and then dragged through the free moveable right eyelet.*

4. *The shackle will then move to the left side and through the upper left eyelet.*

5. *Put the rest of the shackle through the small eyelets at the velcro.*

***Important Note: Please control the prisoner before the transport.***
