

## HIATTS Baton – Expandable Baton

Hiatts Expandable Batons with friction lock have positive stop joints and single piece end caps with adjustable retaining springs. Furthermore, they are user serviceable.

The model HZB has a moulded finger grip, is rust proofed and its lightness provides easy of concealment.

The model STB is a three-part steel baton, complete anti-corrosion plating and with a foam grip. Therefore, this baton is hold in the hand safely in each weather.
