

NOWAR Riot Shield – Model MK-EHS/99

Our protective shield, developed especially for armed forces and law enforcement units, ensures perfect protection from non ballistic attacks, such as hitting, stabbing, flying objects (e.g. brick, stone, wood or iron sticks) and burning objects (e.g. Molotov cocktail). The shield, which is worn on the forearm, is made of see-through, thick Plexiglas this way the user can see the attacking person and the direction of attack during action. The forearm fixture's lower half is half fastened so in case of close fighting the attacker cannot wrest the user's arm by turning around the shield. The grip of the shield is foamed. Due to the foamed grip and holding the shield in 45°angle it absorbs most of the power of the impacts and hits.

Material	- Polycarbonate
Colour	- Clear
Dimension	- 100 x 58 cm / 39.37 x 22.83 in
Weight	- Ca. 3.400 gram
Article-No.	- 0220101 Shield without baton holder - 0220103 Shield with baton holder (Please order the baton separately)
Notes	- Its also possible to produce the shield as „Push away“-shield (edges outward). Perfect for use in closed rooms (e. g. correctional facilities).
