

## PROTEK Body Protection Equipment – Leg Protector Superior

Ultra Light, extended knee, shin and foot protection combined with extra ankle protection. Alternatively with conventional PU foam padding or with breathable comfort cushioning. The outer material consists of high-impact polypropylene. The Shin-protection has 6 ribbings, so high shock absorption. Individual adjustment via Velcro closures. Appropriated for concealed wearing or for wearing over the clothes.

Operational area: during violent demonstrations or in the field of justice. Different versions are possible, for example, only knee and shin protection or just shin protection to insert into the tactical overall suit.

Optional are also several bags for your body protection equipment available.
