

BOLLÉ tactical goggle – Model Chronosoft Commando

The Chronosoft Commando goggle, sealed version, has been developed and designed by Bollé especially for commando units, special forces, rapid deployment groups, helicopter crews, navy crews as well as the fire-fighters. Manufactured in KRATON, it resists very high temperatures, allowing its user, thanks to its double lens, a very high level of protection against glares, gas, dust and sand. The Chronosoft Commando goggle is supplied with a double lens: a clear acetate anti-fog inside and an anti-scratch clear polycarbonate outside.

Frame	- KRATON			
Colour	- Black
