

CUDAS Windless by Silencio – Protection glasses

They're cool. They're aerodynamic. They're protective. The CUDAS glasses feature a six-base lens curve and our „folded back“ lens design providing more protection from the wind, glare and hazards than competitive models. The 2.0 mm optical grade polycarbonate lens has an extra hard coating offering protection from UV rays and resistance to scratching.

These attractive glasses are as comfortable as they are protective. The wrap-around lens follows cheekbone contours for a secure fit. Lightweight frames are made of exceptionally durable nylon.

Frame	- Exceptionally durable nylon
Colour	- Black
Lens	- Polycarbonate - 99 % UV blocking
Article-No.	- 2700101 CUDAS protection glasses, clear - 2700102 CUDAS protection glasses, yellow - 2700103 CUDAS protection glasses, smoke - 2700104 CUDAS protection glasses, vermillion - 2700105 CUDAS protection glasses, green
