

## ESS ICE™ Eyeshields - Replacement Lenses

ESS eyewear features Modular Technology™ for quick interchange of components. Save money by replacing individually damaged parts instead of purchasing entire new systems. These and other accessories can be purchased.

Polarized lenses reduce glare and eye strain and provide 100 % UVA / UVB protection. ESS polarized lenses come standard in the Fusion™ sunglass and are available for the ICE™ eyeshields & the CDI™ sunglass.

To help protect against one of the dangers of modern warfare, ESS offers Laser Protective Lenses for most models that feature interchangeable lenses. Please contact NOWAR about the wavelength specifications.
