

ESS Striker Series™, Striker TurboFan™ and Tactical Series™ Replacement Lenses

ESS eyewear features Modular Technology™ for quick interchange of components. Save money by replacing individually damaged parts instead of purchasing entire new systems. These and other accessories can be purchased.

Modular Technology™ provides quick and inexpensive lens exchange. Single ClearZone™ and dual-thermal ArcticZone™ lenses available in Clear, Smoke Grey, Hi-Def Yellow or Laser Protective.

To help protect against one of the dangers of modern warfare, ESS offers Laser Protective Lenses for most models that feature interchangeable lenses. Please contact NOWAR about the wavelength specifications.
