# ops-core® FAST – O2 Single Strap Kit

The O2 Single Strap Kit for oxygen masks can be used for the ops-core® FAST Ballistic Helmet as well as for the ops-core® FAST Bump Helmet. It is compatible with the oxygen mask PHAOS™ (Parachutists High Altitude Oxygen System) from PARA-FLITE Company and with the oxygen mask PHANTOM Parachutist Oxygen Mask / Regulator from CARLETON Company.

The Extender is bolted with the oxygen mask just by the rivet hole and through the "Snapdragon" closures on the side rails of the helmet mounted (see picture below on right side). The individual positioning and adjusting of the oxygen mask is made by the head-lock tabs.

FAST INTEGRATION
