

NOWAR Operation Gloves – Fast Rope Glove

During special operations of Police or Special Forces persons will be roped down from helicopters in order to reach the location promptly without landing the helicopter. There will be fixed thick ropes on a pivot arm on which the action units glide down without any further safety. The action units need special gloves owing to the frictional heat on the surface of the rope. The rope will be jettisoned after drop of the person so that the helicopter will be manoeuvrable. There can be dropped 14 persons within 30 seconds of both doors of a Blackhawk.
