

FWS – Components – Hand Gun Storage

The fully adjustable Weapon Storage Components are the key to the flexibility of the FWS system whether used in a Police or Military Armoury, as part of a mobile operations unit, or for evidence storage. The components can be positioned in any location on the storage system back panels. They are securely fixed into position using a single fixing for fast changes when required using a single tool.

This permits both high-density storage of single weapon types and, or, a diverse mixture of weapon types on a single Cabinet or Rack – with or without accessories such as scopes. Instant adjustability provides the most flexible solution available to meet any operational requirement.

For police evidence storage, the flexibility provided by the adjustable components enable the highest density storage of diverse types and sizes of evidence such as pistols, shotguns, rifles etc. as well as other weapons such as knives all within a single cabinet or rack.

<p>Hand Gun Pacs (without clip storage)</p>	<ul style="list-style-type: none"> - Capacity: 1, 6 or 8 Pistols - All widely used pistols such as the Glock 17, Beretta 92 (M9), SIG Sauer P226 and HK USP Tactical types as well as revolvers such as the Manurhin MR73 fit securely into the rubber lined cradles in the Pack yet are easy to remove. The M26 Taser by Taser International also fits into the Handgun Pack.
<p>Hand Gun Pacs (with clip storage)</p>	<ul style="list-style-type: none"> - Capacity: 1, 6 or 8 Pistols with magazines - This version of the Handgun Pack provides storage for 3 clips with each weapon. Clips simply slide into storage slots beneath the weapon.
<p>Pistol Peg Pacs</p>	<ul style="list-style-type: none"> - Capacity: 1, 9 or 11 Pistols - The Teflon[®] coated steel pistol prongs provide storage of 9mm pistols in between barrels and barrel jackets of carbines and assault rifles used in Stacking Rack and open Expandable Weapons Rack. The 11 Capacity Pistol Peg Bar is particularly useful when storing longer rifles such as M16 inside the Stackable Weapons Rack as the wasted space between weapons can be used.
