

FWS – Components – Stock Saddle, Shelves, Boxes, etc.

The fully adjustable Weapon Storage Components are the key to the flexibility of the FWS system whether used in a Police or Military Armoury, as part of a mobile operations unit, or for evidence storage. The components can be positioned in any location on the storage system back panels. They are securely fixed into position using a single fixing for fast changes when required using a single tool.

This permits both high-density storage of single weapon types and, or, a diverse mixture of weapon types on a single Cabinet or Rack – with or without accessories such as scopes. Instant adjustability provides the most flexible solution available to meet any operational requirement.

For police evidence storage, the flexibility provided by the adjustable components enable the highest density storage of diverse types and sizes of evidence such as pistols, shotguns, rifles etc. as well as other weapons such as knives all within a single cabinet or rack.

Stock Saddle	- Capacity: 1, 5, 6, 10 and 12
Stock Shelves	- For upper levels - Capacity: 1, 5 and 6
Shelves	- Often used on the Expandable Weapons Rack, the Stock Shelf permits a further row of arms to be stored in armoury locations. - Optional Stock Stop or Back Plates and Dividers are also available
Storage Boxes	- Can be located wherever is convenient on the Racking back panels. These open storage boxes can be used for ammunition, accessories and other loose equipment. - Size: 75 mm and 150 mm
Roll Out Work Shelf	- Provides a very convenient slide-away shelf (rolling on ball-bearings) to temporarily leave clips and magazines while weapons are placed back into racking. - Size: 5 and 6 space wide
Horizontal Mounts	- Enables horizontal storage of weapons - Size: 2 and 3
Article-No.	- FWS Components – Stock Saddle, Shelves, Boxes Horizontal Mounts
