

FWS – Mobile Weapons Storage

Efficient, flexible weapons storage for different locations. Easy and secure transport and space saving storage of almost all types of handguns.

This system ensures easy handling, clear arrangement of arms and quick delivery of needed weapons. Utilising the standard system components, the weapons cart can be immediately adapted to carry a wide variety of firearms. The neutral appearance of the cases allows rifles and hand guns to be transported without attracting undue attention during incidents.

Stackable Racks can be used in vehicles to enable weapons to be brought to incidents, ideal for police or military armoury units. Stackable Weapons Racks can either be permanently located in a designated armoury vehicle. Alternatively, with integrated handles, they can be easily lifted and secured into general vehicles when required.
